25X1

25X1   6. [   ] At his request, saw Frank McNamara,
Staff Director, House Committee on Un-American Activities, who informed
me of information he had received that [   ]
25X1   [   ]temporarily in Canada, possibly wishes to defect. McNamara
said this information had also been furnished to the Federal Bureau of
Investigation by the same source as McNamara's. I checked with [   ]
25X1   [   ]WH[   ]   who informed me they had received this same information
from the Bureau.

25X1   7. [   ] Congressmen Nichols, Bevill, Sam Steiger,
J. Herbert Burke, Fletcher Thompson, McClure, Zion, Scherle, Winn, and
Cowger have accepted invitations to Agency breakfast and briefing at 0800,
20 April 1967.

25X1   9. [   ] Talked with Senator Henry M. Jackson giving
him a copy of the Senator Thurmond article in a pamphlet called NEWS OF
THE DAY. I also discussed with the Senator the Agency's concern on furnishing
a highly classified estimate to the Joint Committee on Atomic Energy. After
some discussion, the Senator agreed that this was an appropriate matter to
take up with the Chairman, filling in John Conway on the reasons for this.

25X1   10. [   ] Talked with John Conway and George Murphy,
concerning the Joint Committee on Atomic Energy's letter of 16 March requesting
an estimate. Conway, of course, informed me that they knew there was such
an estimate. I explained our concern and my direction to speak to the Chair-
man about this. I indicated the discussion was very sensitive and did in effect
discuss operational intelligence aspects. I indicated that a possible solution
would be an extract of the conclusions. I also indicated that I had discussed
this with Senator Jackson in view of his membership on the CIA Subcommittee.
Mr. Conway was very sympathetic on this and agreed that it seemed most
appropriate to take up with the Chairman. He also suggested that[   ]   25X1
be a participant. Conway stated he would try to set this up and advise me.
